Forward Looking Statements

Statements in this presentation that express a belief, expectation or intention, as well as those that are not historical fact, are forward-looking statements under the Private Securities Litigation Reform Act of 1995. The words "may," "hope," "will," "should," "could," "expect," "plan," "anticipate," "intend," "believe," "estimate," "predict," "potential," "continue," and other expressions which are predictions of or indicate future events and developments and which do not relate to historical matters identify forward-looking statements. These forward-looking statements involve a number of risks and uncertainties that may cause actual events and results to differ materially from such forward-looking statements. These risks and uncertainties include, but are not limited to: Garlock's ability to reach acceptable agreements with asbestos claimants and other creditors, Garlock's ability to obtain court approval for a proposed plan and its proposed debtor-in-possession financing, unforeseen developments affecting Garlock's ability to pay creditors in full, operate in the ordinary course and adequately fund a trust to resolve all current and future asbestos claims. Our filings with the Securities and Exchange Commission, including the Form 10-K for the year ended December 31, 2009, and the Form 10-Q for the quarter ended March 31, 2010, describe risks and uncertainties in more detail. We do not undertake to update any forward-looking statement made in this release to reflect any change in management's expectations or any change in the assumptions or circumstances on which such statements are based.

This presentation also contains certain non-GAAP financial measures as defined by the Securities Exchange Commission. A reconciliation of these measures to the most directly comparable GAAP equivalents is included as an appendix to this presentation.

Today's Agenda
